

HAVE A LOOK

Roatan's Most Returned to Dive Resort. Founded in 1982 by Bill and Evelyn Evans, Coco View is one of Roatan's best diving resorts and has steadily grown and improved since then. Over the past 30 plus years, we have continued to develop the tradition of laid-back comfort and excellent diving that our guests have come to expect. Modern upgrades to our guest amenities and diving services have made this resort the most returned to dive resort in the world, and we are always refining our diving operation to make sure it is the ultimate in diver comfort and enjoyment.

CoCo View Resort has the reputation for being the easiest place to dive on the island. Everything we do at the resort is done with the intention of making your dives safe and comfortable. When you stay with us, enjoy unlimited, 24 hour access to walk in, walk out shore diving and snorkeling

along the reef in our "Front Yard," literally steps from the resort, or join us on a comfortable boat trip aboard one of our unique, custom designed dive boats to one of Roatan's great diving sites. You're likely to see sea turtles, moray eels, dolphins, massive coral walls with spectacular sea sponges, and wrecks.

Imagine going to sleep with the sound of the ocean gently lapping outside your room, rocking you to sleep with its hypnotic, caressing cadence. Imagine waking up to the same sound and a beautiful sunrise glistening in the water's reflection. All of our accommodations are either situated on the water's edge or directly over the water. You can't get closer to the ocean than this - at least while you're sleeping! Every room is air-conditioned for your comfort, and is equipped with in-room coffee pot, mini-fridges, lockable security box, hammock and maid service. With a location that can't be beat, beautiful ocean views come standard.
